

GBR Testimonial

In February of 2006 when I applied to be a member of the GBR it was my intention to be an active member and give as many referrals as possible. I hoped to meet as many trusted business people in the local area as possible to be able to confidently refer people to. My expectation as far as getting referrals was minimal. I did not expect the group to give me as many referrals as they did.

I have tried to be the best member I could be for this group. To my amazement the amount of referrals I have been deluged with is unbelievable. In my first 4 months with this organization I have gotten over \$18,000 worth of business. All of this is directly related to referrals from the GBR. I am so overwhelmed with this response that I can't believe it.

All I can say is that the members of the GBR are good at giving me referrals and it has made a big difference in the success of my business. I greatly appreciate all there help and hope it continues in the future.
