Dear Nathan,

I just wanted to write you a letter of thanks for the work that you have done for me on my Mortgage Company website and my Information Marketing website.

At times I know you were wondering just what exactly I was trying to accomplish since it is totally different than anything that you have worked with before but now that we have things wrapped up, you have seen the end results and the great leads that we are obtaining from our sites.

Your knowledge and expertise in Web Development are second to none and if I ever had a question or needed a change made, you were there to take care of it for me in a timely fashion and made sure that it was done according to what my wishes were.

I will recommend you to anyone that I know that needs Web Development services in the future and I will surely be maintaining our great relationship that we have developed over the past several years.

If you need anything, please do not hesitate to let me know.

Sincerely,

Christopher J. Monge
