

Testimonial for Scott Petersburg of Petersburg Insurance Dated June 30, 2008

Connie and I have had our Home and Car Insurance with Scott for a little over three years now and have found that he takes Insurance to a whole new level.

To start with when I first got a quote from Scott I was asked more questions than ever before from previous agents, but with all these questions I now feel that I am better covered than ever before and also understand what I have rather than just paying a bill and wondering if I am really covered properly.

The second item I would like to pat Scott on the back for was helping me get my escarole in line after refinancing my house this past year. When I refinanced the lender required me to escarole for taxes and insurance. When looking at all the paperwork afterward Scott notice that my insurance had already been paid prior to the refinance and therefore had extra money setting in the bank. Scott then proceeded to get the bank to pay the insurance out of my escarole and to get the insurance company to refund me the initial payment. (It is always nice to have the extra money for other bills etc.)

In all Scott goes above and beyond to make sure his customers not only understand what they have for policies and also makes sure everything is in the best interest of his clients.

Thanks again Scott,

Sincerely, Tom and Connie Sue Prochnow
