

I have a Great Dane that loves to follow me around, even when I'm cleaning. She started having some problems with her eyes and when I took her to the vet, they said it was from the cleaning products I was using getting sprayed in her eyes. Since I can't keep my dog from following me around while I clean, I switched to Shaklee's Get Clean products, and my dog has not had any problems with her eyes since. Now I'm saving money on cleaning products & vet bills!

I recently switched to ALL brand laundry detergent from another store bought product and immediately started to develop a rash all over my stomach. As soon as I switched to Shaklee's laundry soap, my rash started going away.

Thanks Shaklee!
